

## Handheld ISO Reader " PetScan "

With the iDTRONIC PetScan ISO Reader you may read or detect any implanted RFID microchip of companion animals. It complies to the ISO11784/85, FDX A, FDX B and HDX standards.

The PetScan allows pet identification by reading the most common 125kHz radio frequency chips.

By pressing the scan point of the reader and bringing it near to the animals body the scan will start. The unique identification number of the chip will be displayed at the LCD Display of the reader.

**Product specification:**

<b>Dimensions:</b>	15 x 8 x 35cm
<b>Weight:</b>	140g
<b>Power supply:</b>	Standard: 9V alkaline battery PP3 Option: Lithium battery
<b>Reading distances:</b>	FDX B: 8-10cm FDX A: 4-5cm HDX: 8-10cm (ear tag)
<b>Operating temperature:</b>	-10°C to + 60°C
<b>Interfaces:</b>	RS232 Option: Bluetooth
<b>Order number:</b>	R-HH-PETSCAN-BT (Bluetooth) R-HH-PETSCAN-232 (RS232)
